

BIRDER'S GUIDE

*to birds of
Landa Park*

Whether you're a devoted birder or a casual observer, Landa Park is a great destination for bird watching. This scenic park provides nesting and feeding habitat for a large variety of bird species, both seasonally and year-round.

The park's 51 acres of green space include the Comal Springs, plants and groves of trees that support a great variety of birds, from yellow crowned night herons to red-shouldered hawks.

Photo above: Red-shouldered Hawk and Chick

Photos on back: Yellow-crowned Night-Heron, Green Heron, Female Wood Duck

“ We are fortunate to live in an area that is part of several migratory flyways, where there are abundant numbers of costal and shore birds, seasonal visitors from the south and west and many woodland species. Landa Park is a choice destination for any bird lover. ”

- Dan Tharp

Field Checklist to Birds of Landa Park
